seminar paper from the year 2013 in the subject ethnology cultural anthropology grade 1 massey university new zealand language english abstract throughout the modern era particularly with the development of new and innovative technologies conflict has existed between the environment and those who inhabit it with the advent of highly industrialised technology during the 20th century conflict has been on a steady increase as there are often dialectical processes involved between those creating technological innovations and those who become unwittingly involved in them one environmental conflict called hydraulic fracturing or fracking as it is commonly referred to is a profitable industrial practice whereby natural gas is extracted from rock layers in the ground fracking is an environmental conflict arising from economic and political marginalisation based primarily on class divisions this will be demonstrated first through describing fracking and how it is an environmental conflict by explaining how fracking fits into a political and economic framework and by finally outlining the cultural component that is how marginalised socio economic and ethnic groups are affected by the practice of fracking political ecology theory will be applied in order to gain an understanding of the complexities of fracking as this theory focuses on the mutual development of both political and ecological change it is acknowledged that whilst applying a political

ecology perspective is an effective anthropological method it is also necessary to apply other anthropological theories in order to gain a more holistic analysis

this is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are denied access to policy agendas the book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities

this edited volume provides an international perspective on the crucial role that university business partnerships play in the areas of innovation and economic development with contributions from leading academics and practitioners from the united kingdom italy india the us and elsewhere this volume aims to contribute to an understanding of how to develop more innovative firms particularly in the small and medium sized business sector

this book examines the results of a major study of innovation in organizations calling into question most of the explanations of the innovation process that have been proposed in the past the authors find that the innovation process is neither sequential and orderly nor is it a matter of random trial and error rather it is best characterized as a nonlinear dynamics system they explain that the innovation journey involves motivating and coordinating people to develop and implement ideas by engaging in transactions with others while making the adaptations needed to achieve desired outcomes within changing organizational contexts
